

## Package Comparer

OHRA Zorgverzekering 2019

This guide shows at a glance what coverage is provided under each of the insurance policies so that you can compare the various healthcare packages. Only insurance policies that can be taken out in 2019 are included. For the cover provided per reimbursement under all of the supplementary insurance policies, see [www.ohra.nl/vergoedingenwijzer](http://www.ohra.nl/vergoedingenwijzer). If you only want to see what is covered in your own policy, download the OHRA App or log on to Mijn OHRA, where you will find details of what is reimbursed under your insurance policies.

### Basic insurance

The government determines the reimbursements under the basic insurance plan. OHRA has made agreements on rates with most healthcare providers. OHRA reimburses in full the bill you receive from your healthcare provider. A sign in the package comparer signifies that this care is insured. If you visit a healthcare provider with whom OHRA does not have an agreement, we reimburse the bill in full. Very occasionally, however, we receive a bill from a healthcare provider that is unreasonably high. We are prohibited by law from reimbursing such a bill. Fortunately, this almost never happens. In the 'excess' column, you can see whether or not a reimbursement falls under the excess. Only insured persons aged 18 and older pay the excess. The 'personal contribution' column shows the amount that every insured person is obliged to pay. The personal contribution is fixed by the government and comes on top of your excess.

### Supplementary and dental insurance policies

If you want more extensive cover than the basic policy provides, you can take out supplementary and dental insurance. All of the amounts quoted in this guide are maximum amounts per insured person per calendar year, unless otherwise stated. In every case, the healthcare provider and/or institution must be recognized by OHRA.

This overview presents the overall reimbursements and coverage. The full content and scale of the insurance packages can be found in the policy conditions. No rights may be derived from this overview.
