

# Guide to Reimbursements 2022

Contracted care

# What we reimburse

This overview lists the reimbursements provided by our basic, supplementary and dental insurance policies. These reimbursements are only for care provided by our contracted care providers. These are the hospitals and care providers with which we have contractual agreements regarding care, price and quality.

## We have 3 basic insurance policies

All basic insurance policies reimburse the same care. This is stipulated by the government. The 3 basic insurance policies we offer differ in terms of the number of hospitals and care providers where 100% of the cost of your treatment is reimbursed. The policies also differ in terms of the reimbursement for non-contracted care.

1) The selected hospitals are listed at [zk.nl/ziekenhuizenbasisbudget](http://zk.nl/ziekenhuizenbasisbudget).

2) The average contracted rate is calculated using the average of all contracts or the basic or standard rate for regular services under the Healthcare Insurance Act. Because we have no insight into the quality of the care provided by non-contracted care providers, no value is placed on quality surcharges.

3) You can receive urgent medical care, obstetric or midwifery care and dental surgery at any hospital without having to pay more. You can also receive treatment at any hospital without having to pay more if you are referred by a specialist.

4) If you are treated by a non-contracted care provider, we reimburse the costs of insured care up to the legally established rate. If there is no legally established rate, we will reimburse up to the prevailing market rate in the Netherlands.

## We have 5 supplementary insurance policies and 5 dental insurance policies

You can choose to take out supplementary insurance for care not covered by your basic insurance, if you want additional reimbursements and more security, for example. All of the supplementary and dental insurance can be found in this Reimbursement Guide, allowing you to compare them and see what fits you best.

To find out whether we have a contract with your hospital or care provider, visit [zk.nl/zorgzoeker](http://zk.nl/zorgzoeker) for an overview of all contracted hospitals and care providers.

# Reimbursement Guide 2022

This Reimbursement Guide summarises what we reimburse. The reimbursements indicated apply per person per calendar year, unless otherwise indicated.

**Please note!** This overview only lists the reimbursements for contracted care providers. These are the hospitals and care providers with which we have contractual agreements regarding care, price and quality.
