

# Basic principles Corona & TU Delft

## Summer 2020

July - 1 August

- Working from home remains the norm. Only come to campus when it's really necessary.
- Stay at home if you or any of your housemates are showing COVID-19 symptoms, such as coughing or sneezing, a sore throat or fever.
- Exams, resits and other educational activities online.
- Limited graduation work on campus: only if it cannot be done online.
- X reopening in phases for outdoor sports.
- Very limited number of study places on campus.
- PhD defences taking place in a greatly modified format.

## Academic year 2020/2021

1 August →

- Start of introduction period for new students in modified format.
- Working from home will remain the norm but in consultation with your supervisor, you can arrange occasional visits to campus.
- Stay at home if you or any of your housemates have symptoms and get tested if possible.
- TU Delft will be divided into segments. We will look at optimal occupancy per building.
- Study places on campus are limited and will only be available via study advisor.
- The aim will be to create a mix of online and on campus education for everyone.
- Teaching schedule will be from 08.00 - 20.00 with education spread over the course of the week as much as possible but not on weekends.

## To prevent the spread of COVID-19, it is important you follow these measures:

- Stay at home if you or any of your housemates are showing COVID-19 symptoms, such as coughing or sneezing, a sore throat or fever.
- Wash your hands regularly with soap and water or use hand sanitisers if soap and water are unavailable.
- Use alcohol wipes to clean your desk and keyboard.
- Cough and sneeze into your elbow, not your hands.
- Use disposable tissues and throw them away.
- Do not shake hands.
- Keep a 1.5 metre distance from one another.
- Avoid crowds and encourage others to follow the guidelines when necessary.

Timeline July 2020. Measures and starting points may change at any time depending on current events and/or changes in government policy.
